

NEW!

SMART TECHNOLOGY

### EXPERIENCE A WHOLE NEW LEVEL OF CLEAN

The new Oral-B® Triumph™ delivers innovative design features including a SmartDisplay with interactive feedback and patented oscillating/pulsating technology with advanced MicroPulse™ bristles for a superior clean. Take a closer look at the toothbrush that is revolutionizing oral care.

### Four customized modes deliver cleaner, brighter teeth and healthy gums.

- › Clean gives your whole mouth a superior cleaning.
- › Soft gently cleans those sensitive teeth and gum areas.
- › Massage stimulates gum area.
- › Polish shines teeth for a dazzling smile.

### Smart Technology™ allows you to get the most from your brushing.

- › Brushing Time displays your actual brush time so you know when you've reached the recommended two minutes.
- › Charge Status tracks battery level so you can brush with full power every time.
- › Brushhead Replacement indicates when it's time to change your brushhead to ensure optimal performance.

### Innovative MicroPulse™ bristles deliver a superior clean in hard-to-reach areas.

- › 40,000 in-and-out pulsations per minute gently loosen plaque.
- › 8,800 side-to-side oscillations per minute sweep plaque away.

### State-of-the-art components revolutionize toothbrush design.

- › Innovative base station keeps toothbrush fully charged.
- › Portable SmartPlug™ charger packs up easily.
- › Ergonomic handle is streamlined for enhanced maneuverability.
